# UNIQUE INITIATIVE

*Sport Invest is a unique initiative in association with the Halcyon Insurance Group which guarantees 40% of all gross commission which is generated under this program to be reinvested back into your associated sporting body on a monthly basis.*

In the majority of cases its as simple as appointing the Halcyon Financial Services Group as your broker while remaining with your existing insurer and without paying a cent more, you will be generating much needed income for your sporting body.

For example, an average household spends approximately R1500.00 a month on their car and household insurance which generates around R225.00 in monthly gross commission. By appointing Halcyon as your broker R90.00 per month of the gross commission which equates to R1080.00 per year would be re invested back into your sporting body. Multiply this by a hundred and possibly in certain cases thousands of members, and your funding woes are a thing of the past.

As the benefits multiply with numbers it allows you to introduce not only the target market of athlete's administrators and sports enthusiasts to the scheme by anyone in your family and friendship circles

To take advantages of this opportunity of assisting your sport to grow we at Halcyon have devised a seamless process to get onto the program.

Initial communication can be in the form of a call, SMS, WhatsApp or e mail and a qualified Halcyon Insurance professional will take you through the process.

As each registered sporting entity has been given a unique identification reference number, there can be no confusion on the allocation of funds to your sporting body.
